

FLANGES

Carbon Steel & Stainless Steel Flanges in DIN, JIS & ANSI Standards

SLIP-ON FLANGES

Flat Faced Slip-On (Plate) Flanges

DIN EN 1092-1, Type 01

Pressure Class

PN6, PN10, PN16, PN25, PN40

Material

Stainless Steel & Carbon Steel

JIS B2220

Pressure Class

5k, 10k, 16k, 20k, 40k

Material

Stainless Steel & Carbon Steel

Raised Faced Slip-On Flanges

DIN EN 1092-1, Type 12

Pressure Class

PN10, PN16, PN40

Material

Stainless Steel & Carbon Steel

ANSI / ASME B16.5

Pressure Class

150

Material

Stainless Steel & Carbon Steel

BLIND FLANGES

Flat Faced Blind Flanges

DIN EN 1092-1, Type 05

Pressure Class

PN6, PN10, PN16, PN25, PN40

Material

Stainless Steel & Carbon Steel

JIS B2220

Pressure Class

5k, 10k, 16k

Material

Stainless Steel & Carbon Steel

Raised Faced Blind Flanges

DIN 2527

Pressure Class

PN16

Material

Carbon Steel

ANSI / ASME B16.5

Pressure Class

150

Material

Carbon Steel

RAISED FACED WELD-NECK FLANGES

DIN EN 1092-1, Type 11

Pressure Class

PN6, PN10, PN16, PN40, PN100

Material

Stainless Steel & Carbon Steel

ANSI / ASME B16.5

Pressure Class

150

Material

Carbon Steel

HUBBED THREADED FLANGES

DIN EN 1092-1, Type 13

Pressure Class

PN16

Material

Stainless Steel & Carbon Steel

LAP JOINT FLANGES

DIN EN 1092-1, Type 02

Pressure Class

PN10, PN16

Material

Stainless Steel & Carbon Steel

BULKHEAD FLANGES

DIN 86041

Pressure Class

PN10, PN16

Material

Carbon Steel

* Additional pressure class and material options are available upon request for all flange types.
